

ETV, a technology service or public service

Nordic Water Technology Verification Centers
ETV Denmark

Christian Grøn

Boosting Environmental Technologies by Verification
Brussels, September 15-16, 2008

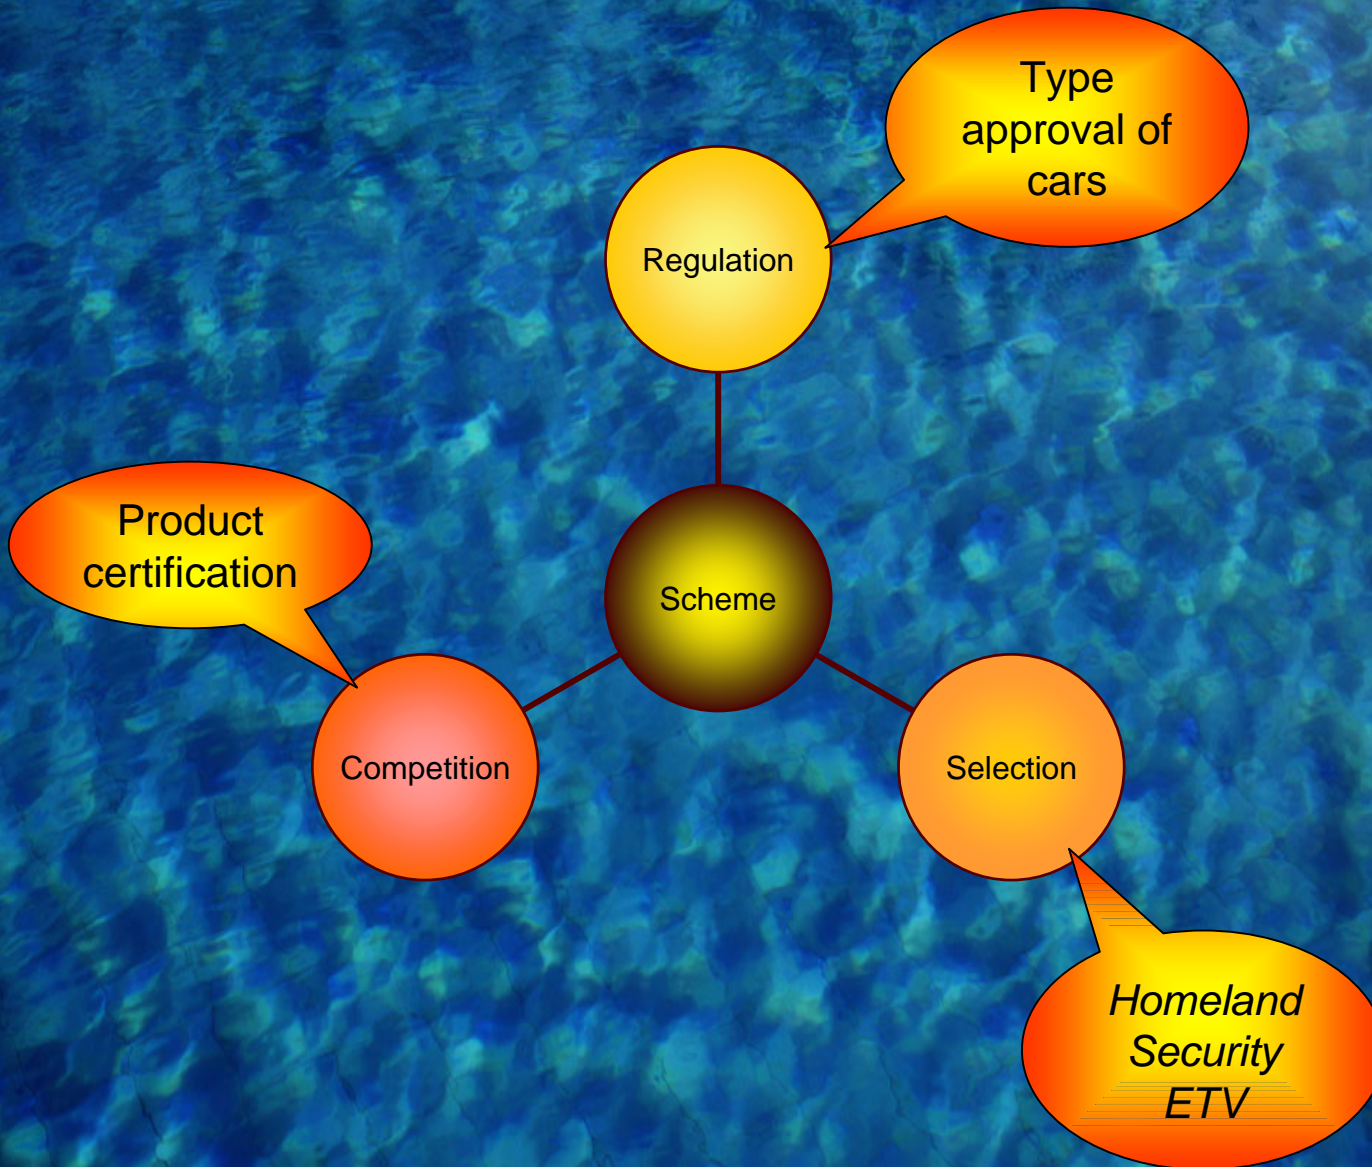

Outline

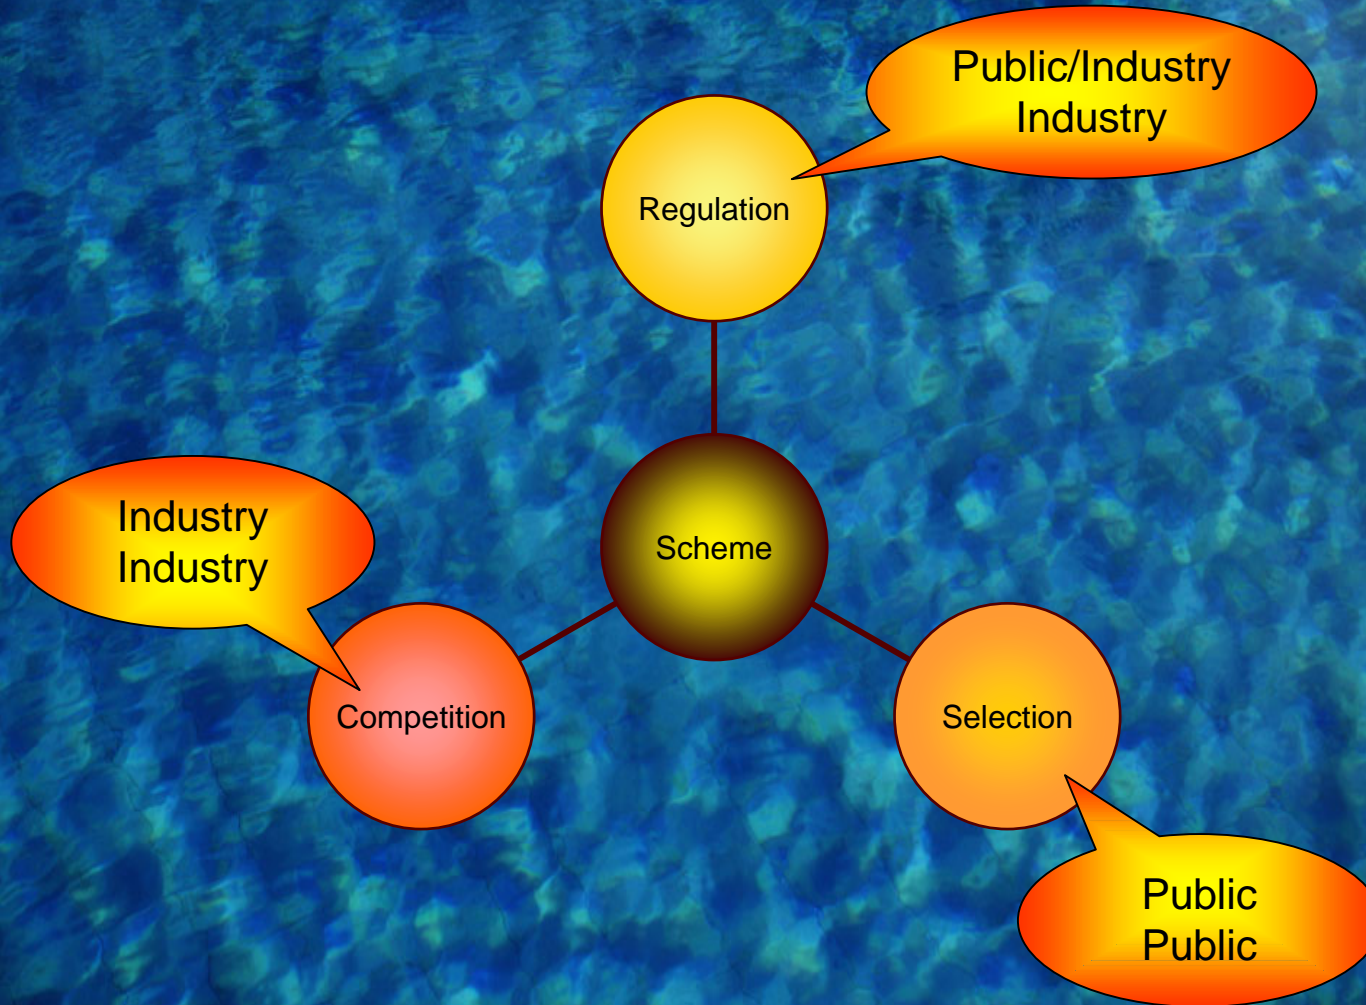

- Drivers, beneficiaries and funding
- Buzzwords for useful verification
- Organization and processes in general
- Suggestions for the EU ETV scheme
- Conclusions

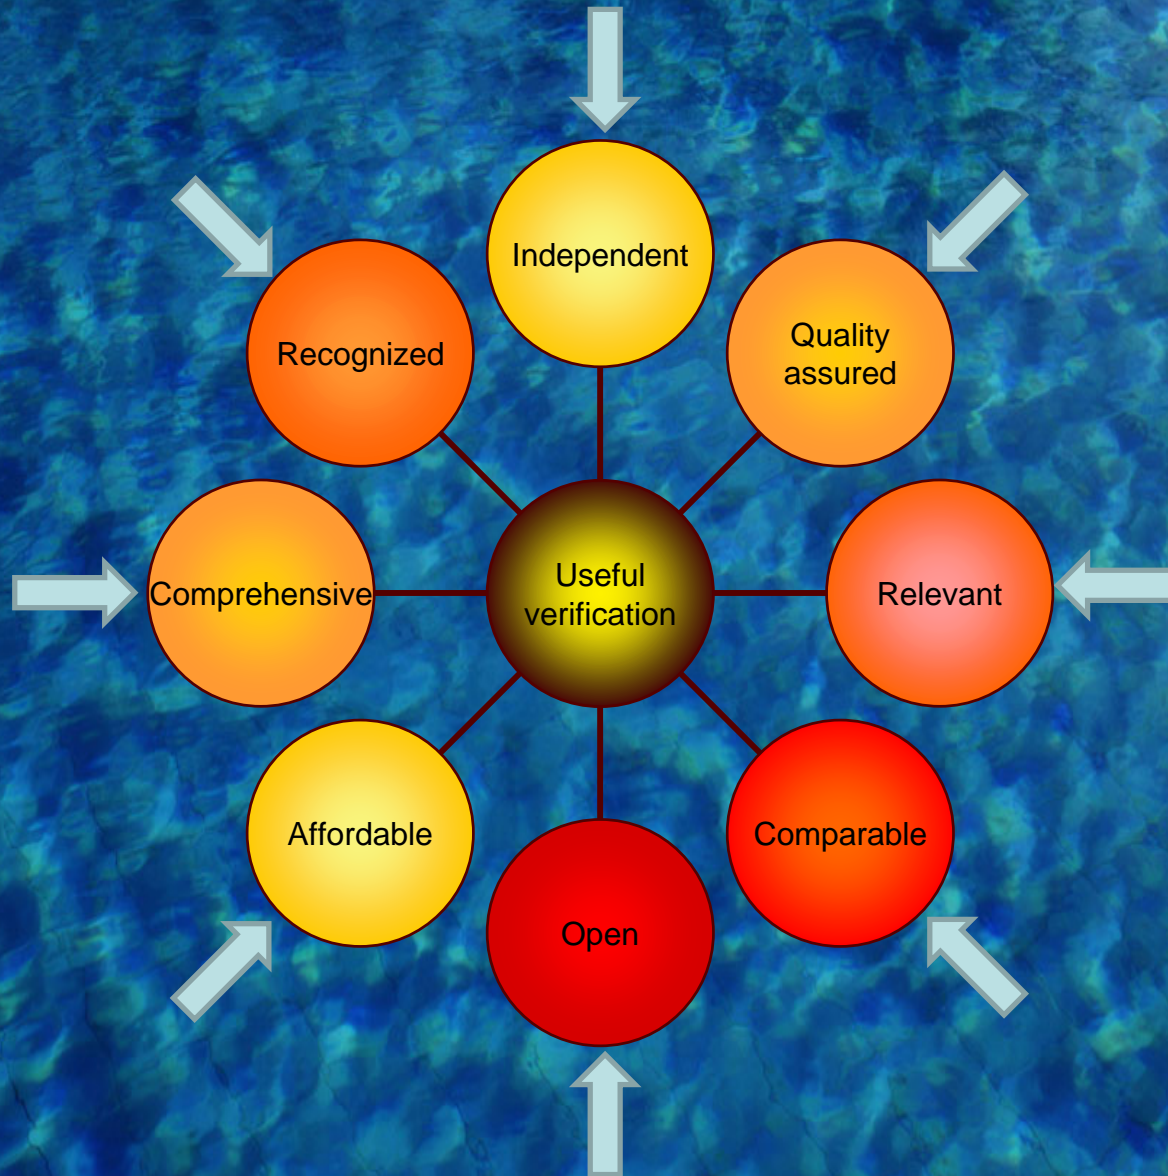

Drivers of “testing”

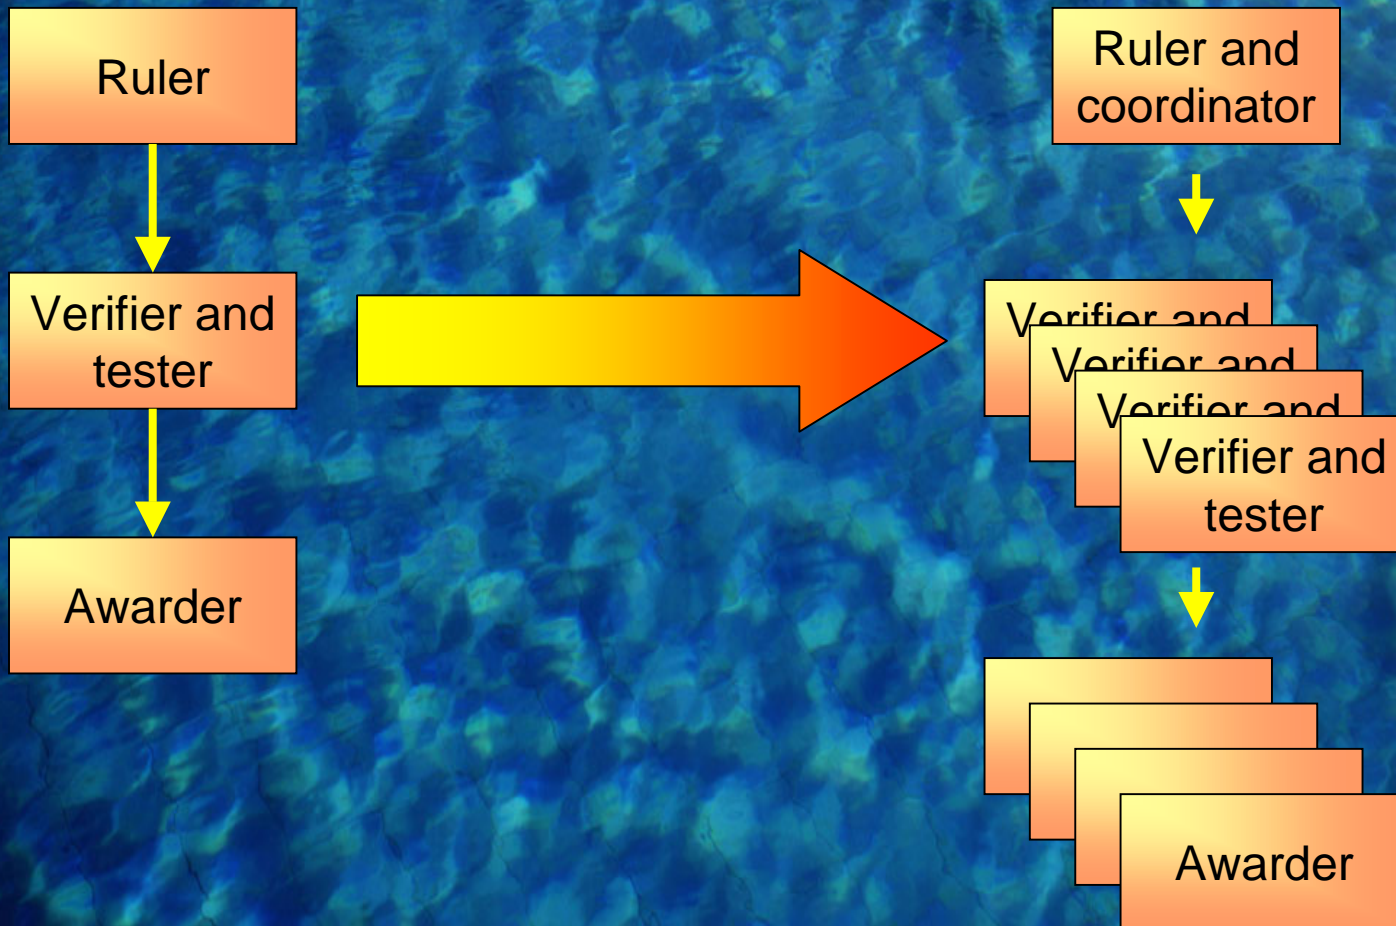

Beneficiaries and funding

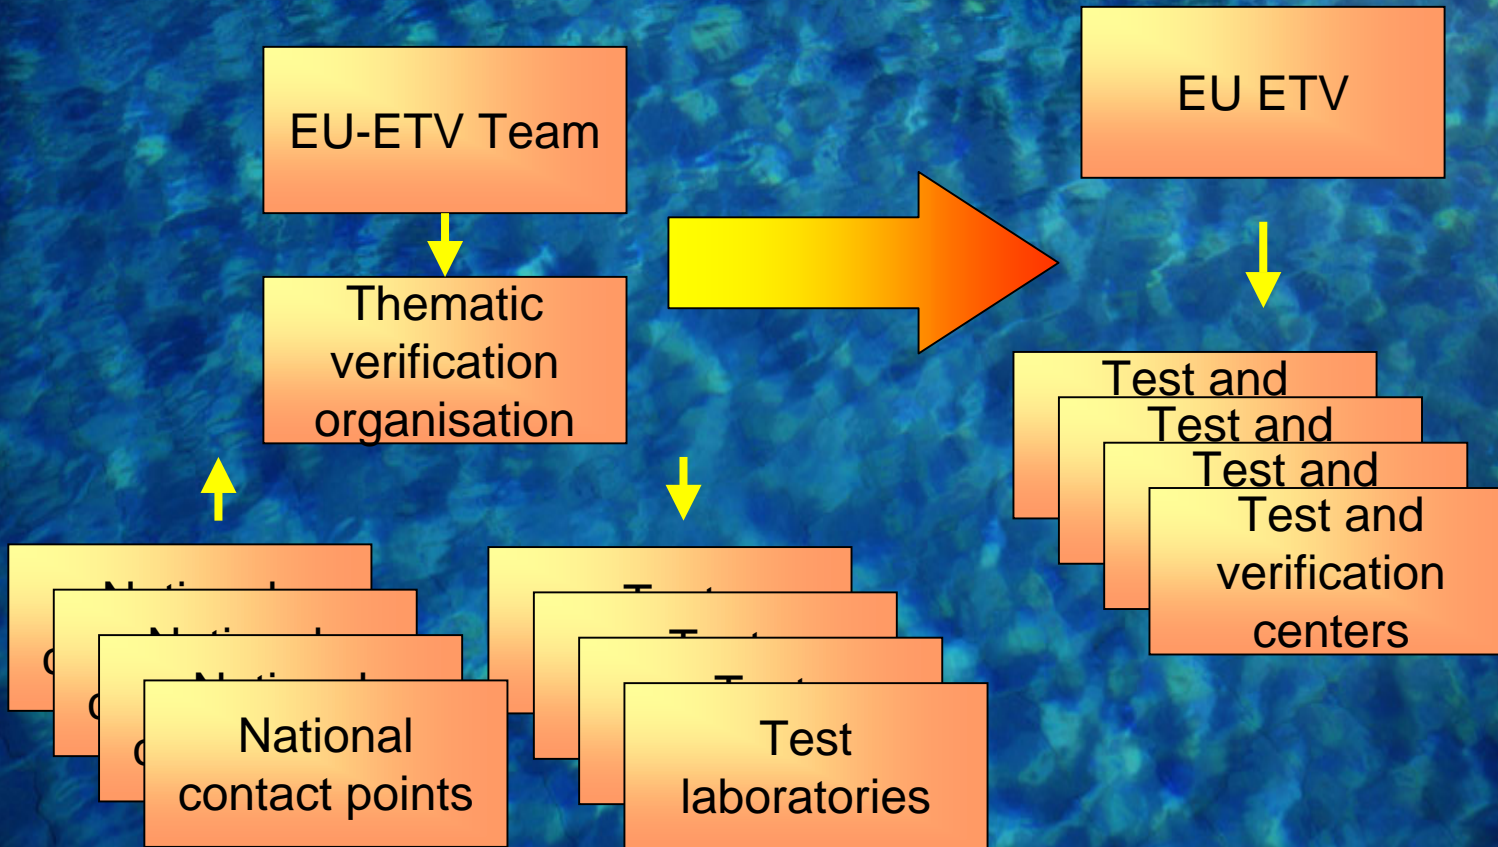

Buzz words for ETV!

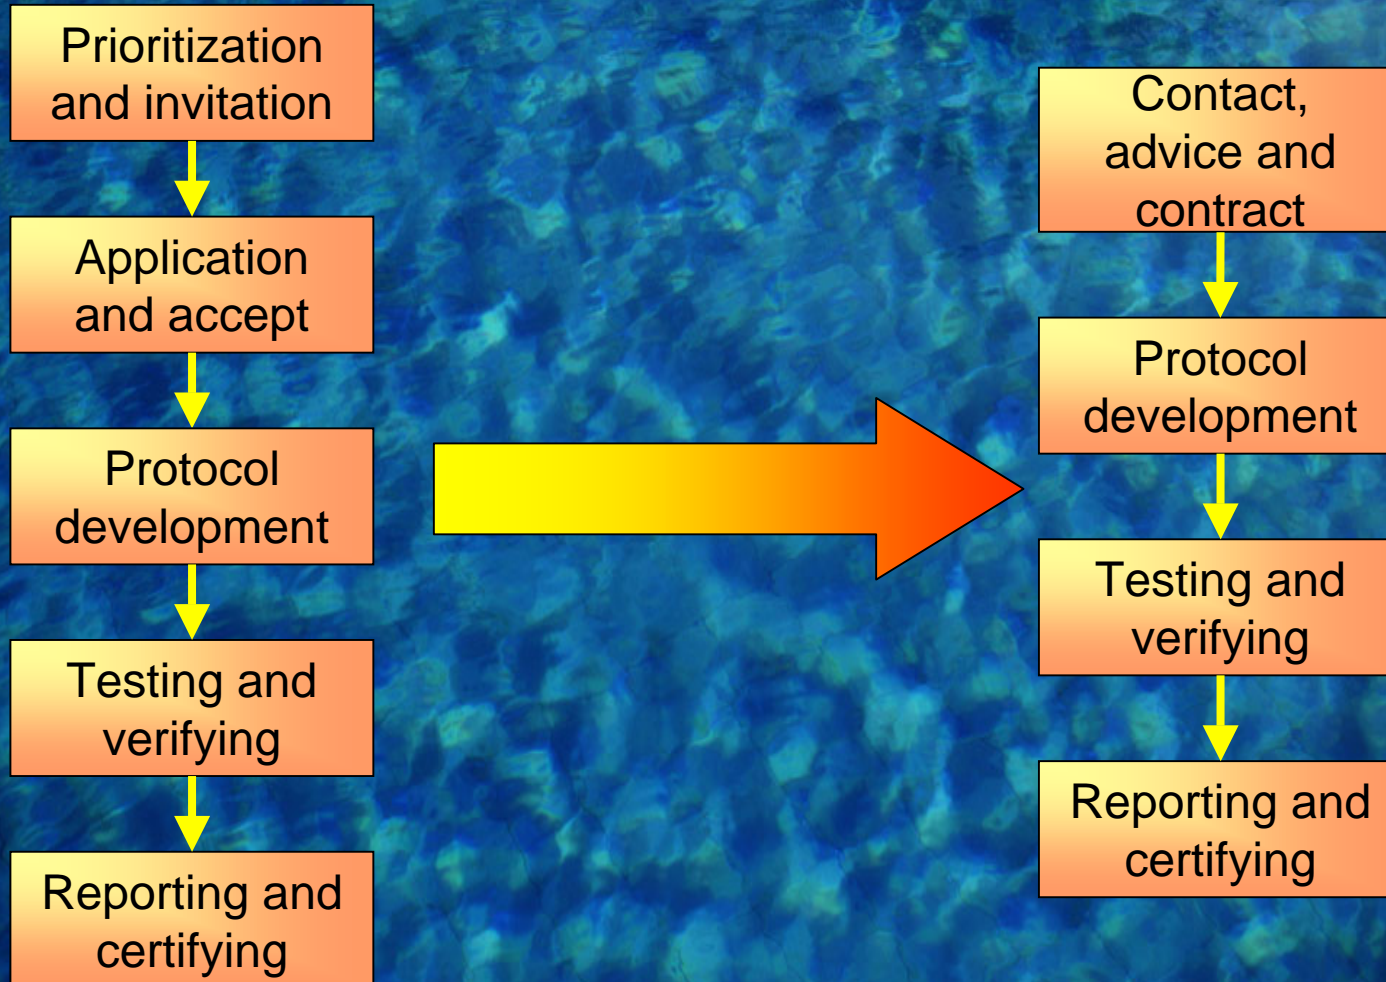

Organization

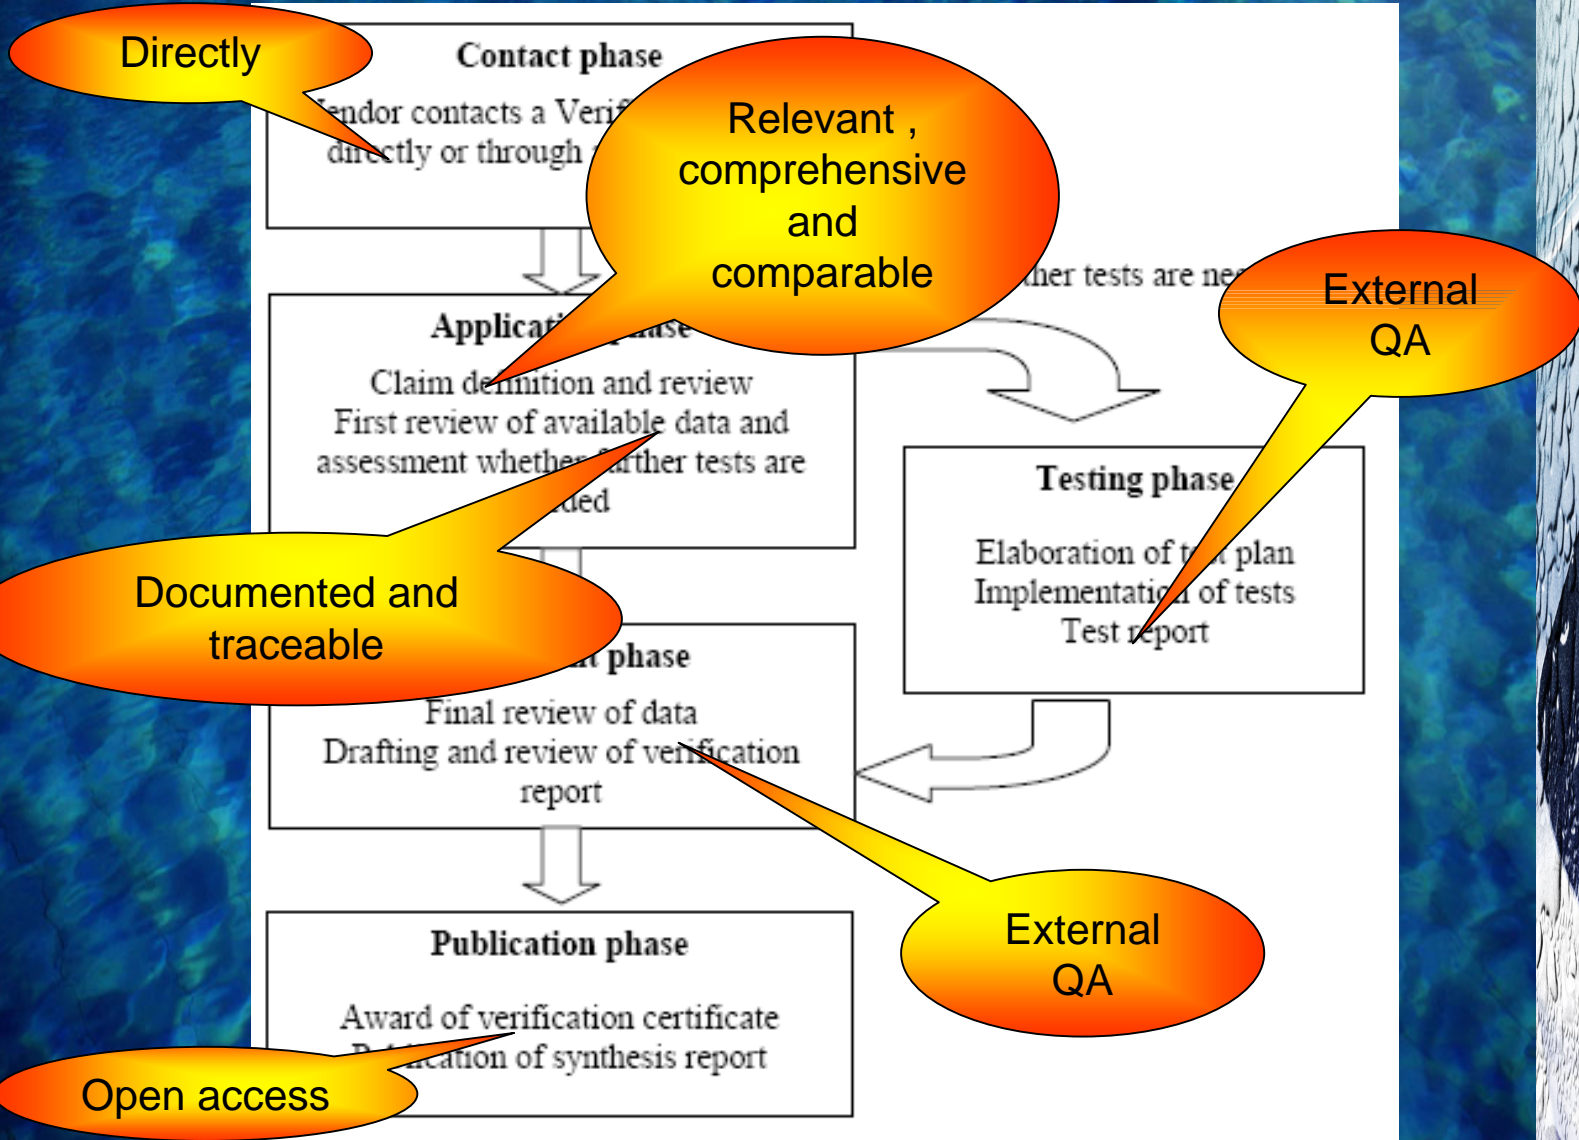

Implications for EU ETV organization

Processes

Implications for EU ETV processes

Conclusions

- Organization and processes must reflect the purpose and the true beneficiaries
- Intermediate solutions are only possible, if the extremes are recognized
- Success depend upon efficient drivers

Technology and verification in less words and more substance
